SANDRIDGE PARISH COUNCIL

ACCOUNTING POLICIES FOR THE YEAR ENDED 31 MARCH 2025

Accounting Convention

The accounts have been prepared in accordance with the Accounting Guidance Notes for Local Councils (the Guide) issued by The Chartered Institute of Public Finance and Accountancy (CIPFA) as applicable to a medium sized council.

As a consequence the latest accounting policies, as set out in the Guide and so far as they apply to this council, have been adopted for the council's statements of accounts.

Fixed Assets

All expenditure on the acquisition, creation or enhancements of fixed assets is reported in the notes to the accounts, provided that the fixed asset yields benefits to the authority and the services it provides for a period of more than one year. Fixed assets are valued on the basis recommended by CIPFA.

The year end values are stated on the following basis:

- operational land and buildings and vehicles and equipment are reported in notes to the accounts at purchase cost or prior year values where actual cost is unknown.
- certain community assets are the subject of restrictive covenants as to their use and/or future disposal. Such assets are therefore considered to have no appreciable realisable value and are included at nominal value only.

Debtors and Creditors

The revenue accounts of the council are maintained on an accruals basis in accordance with the guide. That is sums due to or from the council during the year are included whether or not the cash has actually been received or paid in the year. Exceptions to this are payment of insurance premiums and regular quarterly accounts (e.g telephones, electricity). This policy is applied consistently each year. Therefore, it will not have a material effect on the year's accounts or on the council's budget.

External Loan Repayments

The council has no long term borrowing. Consequently, there were no external loan repayments made in the year.

Leases

The council has no commitments under finance leases. Rentals payable under operating leases are charged to revenue on an accruals basis.

Reserves

The council maintains certain reserves to meet general and specific future expenditure. The purpose of the council's reserves is explained in note 10.

Interest Income

All interest receipts are credited initially to general funds.

Pensions

The pension costs that are charged to the council's accounts in respect of employees are equal to the contributions paid to the funded pension scheme for these employees.

These contributions are determined by the fund's actuary on a triennial basis and are set to meet 100% of the liabilities of the pension fund, in accordance with relevant government regulations.

The next actuarial valuation is due at 31st March 2026 and any change in contribution rates as a result of that valuation will take effect from 1st April 2026.
